EXPECTED PROGRESS

Placing fingers 1, 2 and 3 in the D-major frame (high second finger) on the D and A strings

Keeping the same hand frame when crossing between the two strings

Even bow distribution: whole bow on minims, half bows on crotchets, a quarter on quavers

Quiet string crossing led from the elbow, not the wrist

TECHNICAL ADVICE FOR PREPARATORY WORK

For the first two days work the left hand alone, without the bow. On the D string place fingers 1, 2 and 3 in turn, plucking each note and leaving every finger down as the next one arrives:

Then take the bow on the open strings only. Cross from D to A and back with whole bows, letting the level of the elbow change while the wrist stays passive. Listen for a crossing with no gap and no accent:

Practise each quaver cell separately, stopping on the first note of the following beat:

Establish rhythmic precision with the following variant, keeping the bow speed constant through the dotted note:

Let the weight of the arm rest into the string through the first finger of the bow hand. Following the fundamental principle of the method, exclude any tone produced by pressing: the sound comes from weight and bow speed, never from force.

RECOMMENDED MINIMUM TIME FOR THE STUDY

2 weeks*

* The minimum recommended lengths are only suggestions, and can be adjusted in step with the student's rate of progress.

期待される進歩

D線とA線上で、二長調の手の形（第2指を高く）で第1・2・3指を置くこと

移弦の際に、同じ手の形を保つこと

弓の配分の均一化：二分音符は全弓、四分音符は半弓、八分音符は四分の一弓

手首ではなく肘から導く、静かな移弦

準備練習のための技術的助言

最初の二日間は弓を持たず、左手のみで練習する。D線上で第1・2・3指を順に置き、各音をピッツィカートで鳴らし、次の指を置く際も前の指を離さないこと：

次に、開放弦のみで弓を使う。全弓でD線からA線へ、そしてまたD線へと移弦し、手首は受動的なまま肘の高さだけを变える。隙間もアクセントもない移弦になっているか、耳で確かめること：

各八分音符の音型を個別に練習し、次の拍の最初の音で止めること：

次の変奏によってリズムの正確さを身につける。付点音符の間も弓の速度を一定に保つこと：

弓を持つ手の人差し指を通して、腕の重さを弦に預けること。本メソッドの基本原則に従い、押しつけて出す音を一切排除する。音は重さと弓の速度から生まれるのであって、力からは決して生まれない。

EXPECTED PROGRESS

Carrying the same hand frame (high second finger) from the A string to the E string

Introducing the fourth finger, tuned against the open E string

Bow level for the E string: the lowest arm position, without the bow drifting toward the fingerboard

Continuous sound through the crossing between A and E

TECHNICAL ADVICE FOR PREPARATORY WORK

Days one and two: left hand only, no bow. On the A string place fingers 1, 2 and 3, then add the fourth. Pluck the fourth finger and the open E together and adjust the finger until the two notes are one:

With the bow, cross between the open A and E with whole bows. The arm drops to its lowest level for the E string; keep the contact point near the middle between bridge and fingerboard, since the bow tends to slide away from the bridge on the thin string:

Isolate the fourth-finger bars, stopping on each crotchet. The fourth finger falls from the base knuckle, curved; if it lands flat, bring the left elbow further under the violin rather than stretching from the wrist:

Keep the weight of the arm in the string through the crossing. The fourth finger is placed, never pressed: intonation is corrected by moving the finger, not by force.

期待される進歩

同じ手の形（第2指を高く）をA線からE線へ移すこと

開放弦Eの音に合わせて音程を取る第4指の導入

E線での弓の高さ：腕が最も低くなる位置で、弓が指板側へ流れないこと

A線とE線の移弦を通して途切れない音

準備練習のための技術的助言

一日目と二日目は弓を持たず左手のみ。A線上に第1・2・3指を置き、そこに第4指を加える。第4指と開放弦Eを同時にはじき、二つの音が一つに重なるまで指の位置を調整すること：

弓を持ち、開放弦AとEの間を全弓で移弦する。E線では腕が最も低い位置に下がる。細い弦では弓が駒から離れがちなので、接触点を駒と指板の中間付近に保つこと：

第4指の小節を取り出し、四分音符ごとに止めて練習する。第4指は付け根の関節から丸く落とすこと。指が寝てしまう場合は、手首から伸ばすのではなく、左肘をヴァイオリンの下へさらに入れること：

移弦の間も腕の重さを弦に預け続けること。第4指は置くものであって押すものではない。音程は力ではなく、指を動かして直すこと。

Notes: F#4 (fingering 0), E4 (fingering 1), D4 (fingering 2), C#4 (fingering 3), B3 (fingering 4), A3 (bowing breath mark, fingering 0), G#3 (fingering 0), F#3 (fingering 4), E3 (fingering 4), D3 (fingering 2), C#3 (fingering 1), B2 (fingering 0), A2 (fingering 0).

Étude 3

EXPECTED PROGRESS

The low second finger: the semitone between fingers 1 and 2, on the D and A strings

Distinguishing the two hand frames by touch, with the second finger resting against the first

Tuning the semitone by ear, and correcting it by sliding the finger rather than pressing

Preserving the bow distribution and the quiet crossing of Étude 1 while the left hand changes

TECHNICAL ADVICE FOR PREPARATORY WORK

Days one and two, without the bow: place the first finger, then bring the second finger back until it touches it. Feel the contact between the two fingertips before you pluck. Repeat 1 – 2 – 1 on both strings:

Compare directly with Étude 1: play its first bar, then the first bar of this study. Only the second finger moves; fingers 1 and 3 do not change place:

Practise each quaver cell separately, stopping on the first note of the next beat and listening to the semitone before going on:

When a note is out of tune, do not press harder or lift and re-place the finger: slide it, listening, until the interval is right. Force never corrects pitch; the ear does.

低い第2指：D線とA線上での第1指と第2指の間の半音

第2指を第1指に触れさせて、二つの手の形を触覚で区別すること

半音を耳で合わせ、押すのではなく指を滑らせて修正すること

左手が変わっても、練習曲1の弓の配分と静かな移弦を保つこと

準備練習のための技術的助言

一日目と二日目は弓を持たずに。第1指を置き、次に第2指を第1指に触れるまで後ろへ引く。はじく前に二つの指先が触れ合う感触を確かめること。両弦で1 – 2 – 1を繰り返す：

練習曲1と直接比較する。その第1小節を弾き、次にこの練習曲の第1小節を弾く。動くのは第2指だけで、第1指と第3指の位置は変わらない：

各八分音符の音型を個別に練習し、次の拍の最初の音で止め、先へ進む前に半音を聴くこと：

音程が外れたときは、より強く押さえたり、指を上げて置き直したりしないこと。音程が合うまで、聴きながら指を滑らせる。音程を直すのは力ではなく耳である。

Étude 3

Moderato

mp
semplice

The musical score for Étude 3, Moderato, is written in 2/4 time. It consists of four staves of music. The first staff begins with a treble clef and a 2/4 time signature. The music is written in a single line. The second staff ends with a repeat sign. The third staff begins with a repeat sign. The fourth staff ends with a repeat sign. The score includes various fingerings (0, 1, 2, 3) and bowing marks (V). Circled letters D and A indicate specific notes.

Étude 4

EXPECTED PROGRESS

The G string: the highest arm level, the bow parallel to the bridge on the thick string

Depth of tone from weight and a slower bow, nearer the bridge, never from pressure

The left elbow swinging under the violin so that the fingers fall onto the G string from above

Bow distribution in triple time: three crotchets in alternating bows, the dotted minim in one whole bow

TECHNICAL ADVICE FOR PREPARATORY WORK

Begin with the open G string alone. Whole bows, slow, the elbow high enough that the bow stays parallel to the bridge along its whole length. Watch the bow in a mirror rather than the hand:

Without the bow, bring the left elbow under the instrument and place fingers 1, 2 and 3 on the G string. The third finger rests against the second, as it did in Étude 1 on the D string. Pluck up and down:

Isolate the crossing cells of the second half, stopping at each bar line. The elbow moves between two clearly felt levels, G and D, with no intermediate stopping place:

The thick string speaks late if the bow is fast and light. Use a slower bow with more of the arm's weight, and let the sound open rather than forcing it out; the crescendo in the first half belongs to the bow speed, not to the pressure.

G 線：最も高い腕の位置で、太い弦の上で弓を駒と平行に保つこと

圧力ではなく、重さとより遅い弓、より駒寄りの接触点から得る深い音

指が上から G 線に落ちるよう、左肘をヴァイオリンの下へ回し入れること

三拍子における弓の配分：三つの四分音符は交互の弓で、付点二分音符は一つの全弓で

準備練習のための技術的助言

まず開放弦 G のみから始める。ゆっくりとした全弓で、弓が全長にわたって駒と平行に保たれるよう肘を十分に高く保つこと。手ではなく、鏡で弓を見ること：

弓を持たずに、左肘を楽器の下へ入れ、G 線上に第 1・2・3 指を置く。練習曲 1 の D 線と同じように、第 3 指は第 2 指に触れさせる。上行と下行をピッツィカートで弾くこと：

後半の移弦の音型を取り出し、小節線ごとに止めて練習する。肘は G 線と D 線それぞれの、はっきり感じ取れる二つの高さの間を移動し、その途中に止まる位置はない：

太い弦は、弓が速く軽いと発音が遅れる。より遅い弓とより多くの腕の重さを用い、音を無理に出すのではなく開かせること。前半のクレッシェンドは圧力ではなく弓の速さによるものである。
